

THE SPOT IN GOLF DE ROSES

Golf de Roses is not only perfectly suited to the whole family, but also for couples and groups. Several sand spits inside the water make the spot a "semi-shallow-water" one. The huge sandy beach is gently sloping. In the morning the wind is light, making the spot perfect for kids & youngsters. Our professional instructors teach children from the age of 6, and special equipment with light rigs and very stable boards guarantee fun and make those first steps "child's play". Thanks to the wind blowing cross onshore, drifting away is not possible, nevertheless we provide a rescue boat. Golf de Roses is the right spot for any level, and whether beginners, intermediates or experienced windsurfers, everybody will progress! To avoid people getting in each other's way, the spot is divided into different areas, which are marked by buoys. Swimmers have access to the water to the left of the windsurfing area.

WIND AND WAVES

During the warmer months, the dominant winds are thermals coming from south-east. In the last few years, the "Garbi", a wind from the south, has been blowing more and more regularly, and it usually intensifies the thermal wind. The northerly blowing "Tramontana" dominates in the cooler months, however it can also provide strong winds lasting for days in summer. It blows sideshore from the left. On "good" days, it brings nice waves close to the shore, too. From May until September the thermal winds are very reliable: they reach their peak around 3 pm with an average wind speed of 4-6 bft. More and more often the wind turns to sideshore from the right during the afternoon.

THE CENTER

The Club Mistral & Skyriders Center is situated on the premises of the camping site "Ballena Alegre". Guests who are not staying on the campsite can use free parking spaces in front of the reception. Our center is very spacious, with an integrated surf shop selling accessories as well as the latest fashions.
